TESTIMONIES

“Jason is an excellent worship leader and a great facilitator of bringing people from different backgrounds and abilities together to work together as an effective group. Jason is great thinking outside the norm and drawing people towards new ideas and new standards.”

“I worked and performed with Jason many times at LifePoint Church, and he's tremendous. There are plenty of good Christian men who can lead worship; plenty who have a heart for God, plenty who love people - there are fewer who demonstrate irreplicable integrity year after year, and fewer still who will roll up their sleeves and dive into the behind the scenes work with a smile and an attitude for gratitude like Jason. If you get a chance to work with this guy or, even better, hire him, just do it. Do it now, and thank me later.”

“Jason is a very passionate and skilled worship leader, whether it be music ministry or sermon, Jason puts his whole heart and soul into the message. He stands on the word of God and looks to him daily for inspiration.”
